SMASH the . . . "SINGLE TAX"

If a man steals your purse, at the point of a gun, IT'S ROBBERY!

But if tax cranks and social revolutionists rob you of your home, your farm, your job and your savings, IT'S YOUR OWN RESPONSIBILITY

Your DEFENSE is in your own hands—in your intelligent use of the ballot. The discredited, six-times-defeated "Single Tax" will appear as Proposition No. 20 on your November ballot.

This ruinous proposal would . . . Confiscate Homes and Farms by piling extortionate taxes on Land — Higher than Taxpayers could pay.

It would wreck trades and industries, skyrocket rents, drain the State Treasury of the funds necessary to pay old age pensions, to maintain the public schools and other essential functions of government.

It would bring chaos, distress and disaster to California. And Remember: You Can't Vote Sales Tax Out, Without Voting "Single Tax" in. The bait of "sales tax repeal" is a deliberate attempt to snare the unwary voter.

VOTE "NO" ON No. 20!

Mrs. H. R. Williams, head of the Tenth District P.T.A. bureau of publicity, acted as toastmistress and mingled wit and knowledge of the press in questions presented to the club editors. Bill Henry, L. A. Times sports editor, spoke on the P.T.A. football carnival and commended the organization for the manner in which it is handled. Local women attending the affair were Mrs. S. C. Murray of WALTERIA, president of Lomita-San Pedro Council; Mrs. Wm. Jolly, publicity chairman for San Pedro-Lomita Council; Mrs. George Fisher, Fern Avenue P.T.A.; Mrs. Vincent Villonave, Elementary P. T. 'CP' Gas Ranges Embody Many New Features

Celebrating the perfection of the most recent contribution to American home cooking—the new "Certified Performance" gas range—gas range manufacturers, dealers and gas companies are now engaged in a campaign to acquaint gas users with this amazing new appliance.

During the "Certified Performance" campaign, customers who purchase the new type range are being given special trade-in allowances on their old cooking equipment. In some instances this allowance will be as high as \$35.

Features that distinguish the "Certified Performance" gas range, according to Harry M. Abramson of the National Home Appliance company, are: super-convenience, super-speed, super-economy and super-coolness. The name "Certified Performance" is not a trade brand of any one individual gas range manufacturer, he states, but is a name that is being used by the entire gas industry to designate performance characteristics of this cooking appliance. Two years ago the American gas industry drew up a set of specifications which were considered to fulfill every requirement needed in a gas range, to take full advantage of the superiority of gas for every cooking purpose.
